(Place) (Date)

General Manager's No. 0-812
Ass't Gen'l Mgr's No. E&R-1620
No. _____

Authority for Expenditure of \$1994.00 is requested for purpose of installing temporary bunkhouses and toilet facilities to property at Kansas City, Kansas
(Station or Location)

Description of project:

Construct temporary six foot addition to present temporary bunkhouses and install two showers. Install two toilets and two lavatories in present toilet building and install one additional temporary bunkhouse:

Recommendations:

Supply of local labor at this location is exhausted necessitating our importing Mexican Nationals to supplement our crew. Present toilet facilities for 24 men include but one toilet, lavatory and shower. Representative of Department of Labor of Mexico recommended we install two additional toilets, two lavatories and one shower. Present facilities are in one end of bunkhouse and as space will not permit these additional facilities, propose to erect a temporary six foot addition to building to accommodate two showers. Space released by removal of shower will be utilized by additional toilets and lavatories. These changes will overcome objection and provide adequate accommodations.

Last year the Federal Cold Storage Co., whom we contract with for ice requirements, used War Prisoners for loading carload ice for switch to PFE platform. Due to Union protests this labor will not be available and it is proposed to have PFE labor at the Ice Company's plant if required for ice loading. To accommodate this additional help propose to ship a portable bunkhouse to Kansas City and erect only in case the Ice Company requests our aid in loading cars.

As this facility will not be required after the duration charges are properly applicable to operating accounts as shown.

Not included in 1945 Budget.
